

## **OALPRP OFFICER NOMINATIONS**

### **Amanda Gamby**

#### Employment

A graduate of Bowling Green State University's Environmental Policy program, Amanda has been in the environmental education field for over fifteen years. She served as the Environmental Educator with the Wood County Solid Waste Management District providing presentations, tours, events, and programming on recycling, solid waste disposal, composting, and other environmental sustainability related topics for twelve years. She left the County a little over a year ago to fill the role of the City of Bowling Green's newly created Sustainability Coordinator position. In this new position, she continues to work closely with city, county, state, and school representatives to coordinate and encourage environmental stewardship activities, including recycling education/outreach, litter cleanup events, Earth Day celebrations, renewable energy education, and stormwater management strategies.

#### OALPRP Involvement

Amanda has been a member of the Ohio Association of Litter Prevention & Recycling Professionals since 2006 and has served on the OALPRP Board since 2008, first as a board member, then as Secretary, and most recently as Vice President. She has been a member of the Conference Committee, serving two years as Co-Chair of this committee, and then as a host for the 2011 Summer Conference. She continues to serve on the conference planning committees for both the OALPRP Conferences and the Partners' Conferences.

### **WANDA SCHAAD**

My name is Wanda Schaad. I live in Washington County. I've been employed by GT Environmental, Inc. for the past 9 years as the education specialist. GT partners with SEOJSWMD to provide environmental education in a 6-county district. I joined the OALPRP board in 2015. It is my pleasure to serve with a board of directors that have the same ideas and goals on sustainability as I do. I have enjoyed traveling the state in the past several years talking with and learning from other likeminded people on the importance of recycling and saving our natural resources. I have served on the board as membership committee chair and currently serve as nomination chair. I have helped for the past 2 years with the silent auction at our annual conferences. I would like to run for the vacancy of vice-president of OALPRP.

### **CHRIS HOFFMAN**

I am a Program Specialist for Montgomery County Environmental Services. I was elected to the OALPRP Board in 2013 and have served on the Finance, Membership, Conference and Scholarship Committees. I have served the board as Treasurer since September 2016.

## **OALPRP BOARD MEMBER NOMINATIONS**

### **RANDY CANTERBURY**

Randy Canterbury is the Knox County Recycling and Litter Prevention Program Manager for Knox County. He is contracted through the DKMM Solid Waste District but works directly for the Knox County Commissioners. He is responsible for providing educational programs to school age youth, residents, businesses, and industry with a focus on “recycling right” in order to reduce contamination of recyclables and reducing the amount of waste going into the landfill.

His accomplishments include helping establish electronic, Styrofoam, document shredding, cardboard and Freon recycling in Knox County. Randy also chairs the Kokosing State Scenic River Cleanup, which covers 28 miles of river that runs through Knox County. His involvement includes assisting “The Friends of Mohican” with cleaning the Mohican River, which runs through a large section of Knox County.

The Solid Waste District encourages program managers to conduct waste audits as part of their responsibilities. Randy has been a leader in his district in providing “Zero Waste” events in an effort to educate residents on what is recyclable and how composting is beneficial to our environment.

Randy’s enthusiasm continues to be a driving force in inspiring others to come together to make Knox County a great place to live.

### **ALEXA ROHM**

I began my career in April of 2015 with Auglaize County Solid Waste Management District and took on the active role of District Office Coordinator. Shortly thereafter, I expanded into the OALPRP meetings and shadowed our Education Consultant. In the future, (beginning 2020) I will be the District Office Coordinator and Educational Consultant for our Solid Waste District and will become a prominent face among our various schools.

My previous work history included Customer Service, Network Operations, Legal Assisting (Workers’ Compensation). I obtained my Associates Degree in 2010 from James A. Rhodes State College with a major in Accounting.

I want to take this opportunity for your consideration on the OALPRP Board of Members and hope that I can serve you.

### **HANNAH SMITH**

Throughout the past several years, I have gained experience working with and supporting a Board of Directors. In my previous job, I was the Administrative Assistant and Outreach Specialist for a small, water-quality non-profit. We were led by a Board of Directors who would meet monthly to oversee financial expenditures and ascertain the direction of the organization. I was responsible for drafting the agendas for these meetings as well as the minutes and distributing them to the Board and online. I was also responsible for a similar duty with the Maumee Area of Concern Advisory Committee (MAAC) who would meet on a regular basis to discuss and develop policy and assess watershed improvement projects. My organization skills coupled with my experience serving a Board of Directors would make me a strong candidate for the OALPRP Board.
